Let's get in: Experience ✨

Frontend Engineer · Contalink (jul. 2022 - present) [Remote, Monterrey, Mx.]

www.contalink.com web reconstruction and maintenance to have more freedom of **customization** (previously webflow). Active participation of the **marketing area**, in charge of measurement through **Google Analytics** and Meta Pixel, as well as **SEO** positioning.

✍️ Web Designer / Developer · Fábrica 4D (oct. 2021 - jul. 2022) [Remote, Guadalajara, Mx.]

Web project **management** and team **mentoring**. Definition of requirements, planning, **design**, development and production.
Active participation in the **web development** team.

⚛️ React Web Developer · Fábrica 4D (jan. 2021 - oct. 2021) [Remote, Guadalajara, Mx.]

Position in a software agency, **developing** websites for **several clients** with different business lines.
Landing pages, E-Commerce, CMS, ERP, etc.

🧰 Frontend Web Developer · Bosch (jul. 2019 - sep. 2019) [Guadalajara, Mx.]

Design and development of an ERP system for a **marketed product.**
Also my **first contact** with React.

🏋️ HARD SKILLS

Frontend: React, Next, Gatsby, JS, HTML, CSS, CSS Preprocessors, CSS Frameworks.
QA: Unit & Integration testing.
Workflow: Git & Github, SCRUM.
Design: UX/UI & Figma.

📈 SOFT SKILLS

Frontend: TypeScript.
Design: Photoshop, Adobe Xd, Illustrator.
Professional development: Ease to learning, good communication, open to feedback.

🎓 Education, last but not least

⚙️ Software Development Engineering · CETI (2019 - 2023)

Currently studying engineering, mostly remote, only 2-3 days peer week in the afternoon

🎒 Software Development Technologist · CETI (2015 - 2019)

Technical and high school degree, my beginnings in programming.
I acquired knowledge such as DB (MySQL), Networks, Circuits, OOP, Mobile Development, and other languages such as PHP, C, C++ &Java (but they're not my main).
